

REMARKS

The Examiner required restriction between six groups of claims. The Applicants have already pursued claims 1-105 and 132-154 in the parent application and in two other divisional applications. In the original restriction requirement in the parent application, Examiner Shameem specified that claims 106-131 and 132-151 were different groups. Therefore, the Applicants pursued claims 132-151 in a divisional application. That is the reason that those claims have been canceled in the present application. Thus, the Applicants wish to pursue claims 106-131 in this application.

Respectfully submitted,

LAURENT A. M. FENOUIL,
